

Servoday Group Presents

USED REFURBISHED WOOD CHIPPER

Servoday Group Stock & Supply a Comprehensive Range of Used & Fully Refurbished Wood Chipper of all major make and brands.

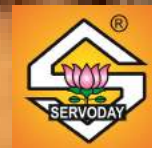

Drum chippers are stationary machines provided with a horizontal feed unit. To ensure an optimal chipping process they are equipped with a fast rotating chipping knife rotor and suitable for chipping of short or long pieces of waste wood, free from tramp material, from the timber sizing and wood processing industry in order to produce a defined homogeneous and continuous wood chip.
