INDUSTRIES

- SAVE TREES - SAVE THE EARTH -

**OUR LATEST INSTALLATION FOR 250 FLATS  
ALREADY COMMISSIONED AT OSHWAL PARK  
NAIROBI**

# Advantages

PIPED LPG SYSTEM

## CONTINUOUS SUPPLY OF LPG

**#1 BENEFIT OF A LPG LINE IS THAT YOU NEVER HAVE TO WORRY ABOUT  
EMPTY LPG CYLINDERS AGAIN WHEN IT'S BARBECUE TIME!**

**EASY & EFFORTLESS OPERATION WITH INCREASED CONVENIENCE**

**SAVE THAT SPACE IN THE KITCHEN FOR SOMETHING  
YOU HAVE ALWAYS WISHED FOR!**

**GAS PIPING IS MUCH SAFER THAN HAVING A GAS CYLINDER IN YOUR HOME OR PREMISE.**

**AVOID CYLINDER HANDLING & POSSIBLE DAMAGE**

**UNLIKE GAS CYLINDERS, THE AMOUNT OF GAS SUPPLIED VIA A PIPING SYSTEM IS  
MINIMAL AND WILL BURN FOR ONLY A FEW SECONDS AFTER THE MAIN VALVE IS  
CLOSED.**
